

tow DOLLIES

Standard Features

- We use easy-lube hubs which ease the re-packing of wheel bearings by eliminating the need for disassembly, and are backed by a 1-year warranty.
- All of our dollies are equipped with new tires and wheels that are computer balanced to assure a smooth ride at all towing speeds.
- Our ramps and carrying pan tilt rearward for loading and feature a raised tread grip pattern that gives extra traction making the Tilt-Bed Loading safer and easier.
- Our fenders are molded of ¼" thick polyethylene which eliminates metal fatigue problems common with steel fenders, and they will not scratch or rust. They feature oval waterproof lights that are mounted with an exclusive light retainer system to insure their secure attachment.
- The carrying pan steers for your car by swiveling smoothly on polyethylene pads which are maintenance free.
- Both safety chains have a unique s-hook safety closure added to insure their secure attachment to the tow vehicle at all times.
- A factory molded plug-together wiring harness is used to eliminate the need for wire splices which often corrode and lead to wiring shorts. It is also poly loomed where exposed and carefully routed outside the fender well to prevent wires from being damaged by debris thrown up from the tire.
- We use an exclusive painting process which involves chemically cleansing and etching the bare metal before applying a durable powder coat finish. This extra effort makes our dollies finish look better and last longer.
- 10,000 pound rated ratchets and adjustable straps securely fasten most 13" through 16" tires and wheels.
- Every Master Tow dolly is backed by a 1-year written warranty to show our commitment to quality.

MASTER TOW

Where superior quality, sales, and service come with every territory!

With over 600 dealers in 48 states, Master Tow is one of the largest and fastest growing tow dolly and utility trailer manufacturers in the country. Founded in 1989, we have built a sterling reputation for superior quality, innovative product design, outstanding warranties, and incomparable after sale service and support.

Our extensive line of products include premium quality, steel constructed tow dolly's, single and double axle, utility and landscape trailers in tubular steel and angle iron, as well as car haulers and motorcycle trailers. A great addition to any business, our tow dollies and trailers are a proven and effective tool for increasing lot traffic, boosting sales, and putting RV dealerships on the map.

At Master Tow, becoming a dealer and placing an order is a simple process. Initial order quantities are only 3 or more units, and there are no minimum stocking requirements. Simply call us at 1-800-522-2190, and we'll quickly deliver to your door.
